## PROFESSIONAL SUMMARY

---

Results-driven Senior DevOps Engineer with 5+ years of experience designing scalable cloud platforms, implementing CI/CD pipelines, and driving SRE practices across GCP and AWS environments. Proven ability to reduce deployment time, improve system reliability, and optimize cloud costs through automation and Infrastructure as Code (Terraform). Strong expertise in Kubernetes, microservices architecture, and DevSecOps practices aligned with enterprise-grade systems.

## SKILLS

---

**CI/CD:** Jenkins, GitHub Actions, Bitbucket Pipelines

**Cloud:** GCP, AWS (multi-cloud architecture)

**Containers:** Docker, Kubernetes (GKE, EKS), Helm

**Infrastructure as Code:** Terraform, CloudFormation

**Observability:** Prometheus, Grafana, SLO/SLA, Logging, Tracing

**DevSecOps:** SonarQube, Checkmarx, Image Scanning

**Scripting:** Python, Shell

**Concepts:** GitOps, Microservices, Blue-Green & Canary Deployments

## EXPERIENCE

---

### Senior DevOps Engineer

Nov 2023 – Present

*IKS Health*

- Architected and implemented enterprise-grade CI/CD pipelines, reducing deployment time by 40% and enabling zero-downtime releases.
- Designed Kubernetes-based platform (GKE) with autoscaling, achieving 99.9% application uptime.
- Built end-to-end observability stack using Prometheus and Grafana with SLOs, reducing MTTR by 30%.
- Automated infrastructure provisioning using Terraform, cutting manual effort by 60%.
- Integrated DevSecOps tools (SonarQube, Checkmarx) to improve code quality and security compliance.
- Developed AI-driven automation for infrastructure provisioning and ITSM workflows.
- Implemented cost optimization strategies using BigQuery dashboards, reducing cloud spend by 20%.

### DevOps Engineer

Jul 2019 – Sep 2023

*PrideTech Labs Pvt Ltd*

- Designed and maintained CI/CD pipelines for microservices, increasing release frequency by 3x.
- Built Dockerized applications and managed Kubernetes clusters (EKS) for high availability.
- Automated infrastructure provisioning using Terraform and Ansible.
- Managed AWS services including EC2, S3, RDS, IAM, and VPC with strong security practices.
- Collaborated with development teams to improve build reliability and deployment success rates.

## CERTIFICATIONS

---

- Google Cloud – Professional DevOps Engineer
- Terraform for Infrastructure Automation
- Google Cloud – Cloud Run & Functions

## AWARDS & RECOGNITION

---

- Google Cloud DORA Award – AI-driven DevOps Excellence (2024)
- IKS Health – Automation Excellence Award (2024)

## EDUCATION

---

**B.Tech**

Presidency University, Bengaluru

2019
